

# Broad Band Multi-Link **BBML**

[www.gulfstream.com/bbml](http://www.gulfstream.com/bbml)

The latest **high-technology** offering for the Gulfstream IV, IV-SP, V, G300, G350, G400, G450, G500 and G550 aircraft.

# OFFICE *in the* SKY

With BBML, you will be able to search the Internet, read and send e-mail, including large attachments, and eventually do video conferencing with voice and imaging over the Internet. BBML enhances your aircraft's function as an "Office in the Sky."

*Just open the browser on your wireless-equipped laptop and you are up and running.*

## BBML

*ULTRA-HIGH-SPEED DATA*

Broad Band Multi-Link (BBML) is the latest high-technology offering from Gulfstream for our Gulfstream IV, IV-SP, V, G300, G350, G400, G450, G500 and G550 aircraft. BBML delivers internet access via a broad band data channel between the aircraft and the ground. Data speeds are up to 3.5 megabytes per second.

Call your local Avionics Sales Manager to schedule a hands-on demonstration of the BBML system.

# BBML HIGHLIGHTS

- 512 Kbps minimum up to 3.5 Mbps data speeds to the aircraft (800 Kbps to 1.6 Mbps typical)
- Lower per minute costs vs. Swift 64
- No additional software required
- Voice-Over IP option available and up to two handsets provided
- Wireless connections with two, wired jacks
- Backed by Gulfstream and ARINC
- Multiple service plans to provide usage options
- US, North Atlantic Tracks and European Coverage available today with plans to expand to Caribbean in the future

*A First in true broad band Internet access  
for a large-cabin business jet.*
